EXPERIENCE

RealSelf, Seattle, WA, Senior Software Development Engineer, Jun 2021 - Feb 2024

- Led the development of several new product initiatives and worked alongside product managers and UX designers to define scope and acceptance criteria.
- Developed and integrated best-in-class software solutions to drive virtual engagement among over 100 million users around the globe.
- Played an integral role in the migration of legacy applications to serverless architecture using React JS in order to optimize performance and scalability.

Apprenti, Seattle, WA, Software Engineer Apprentice, Jan 2021 - Jun 2021

- Built server-side and client-side applications using architectures and frameworks that promote maintainability, scalability, and collaboration
- Applied Computer Science fundamentals in analyzing the trade-offs between competing solutions when choosing algorithms, coding patterns, and practices

Agate Restaurant, Bainbridge Island, WA, Bartender, Oct 2018 - Mar 2020

- Played an integral role in the opening of a new restaurant by developing beverage menus, defining employee standards, and creating systems for operating procedures
- Crafted exquisite cocktails with premium ingredients and engaged in genuine interactions with guests to help generate upwards of \$10,000 in daily revenue

EDUCATION

Code Fellows, Seattle, WA
